

# BRAND® Transferpette® electronic

## Single & Multichannel Pipettes

German manufactured; unprecedented quality and value in an electronic pipette

World's first independently certified "Ergonomics Approved" single and multichannel pipettes!

### Intuitive Interface

User-friendly design allows easy operation, even for new lab techs.

### Adjustable Finger Rest

The adjustable finger rest adapts the instrument to your most comfortable hand position.

### Rechargeable Battery

Over 4000 pipetting cycles between charges means well over a full day of uninterrupted pipetting.

### Low strain

Improved O-rings and the stepped design of the tip ejector reduce tip mounting and ejection forces. O-rings support broad tip compatibility.

### Easy Maintenance

Multichannel manifolds disassemble easily for cleaning or service.

### Transferpette® electronic single channel pipettes

Capacity, µL	without charger		with US plug charger
